

Security screens and doors

Feel safe at home, and keep the breeze

Security doors and window screens let you leave the house open to the breeze, with the insects kept out and the doors locked. Here's how the three ranges we install compare, so you can pick the one that suits your home.

	Invisi-Gard	Alu-Gard	Diamond grille
Made of	Woven 316 marine-grade stainless steel mesh in an aluminium frame	Perforated aluminium sheet, 1.6mm thick, in an aluminium frame	Aluminium diamond grille with a separate insect screen behind
Looks like	A fine black mesh with 1.6mm holes, easy to see out	A smooth black panel with small 2mm round holes	The traditional diamond pattern
Knife, pry bar and impact tests	✓ Yes	✓ Yes	✓ Yes
Child safety on upstairs windows	✓ Yes	Not listed	✓ Yes
Bushfire rating	BAL-40	BAL-40	Not listed
Near the coast	The best of the three. 316 stainless is made for salt air.	All aluminium and very corrosion resistant	Aluminium. Ask us about homes close to the water.
Warranty	Lifetime on the mesh for homes, 15 years on the frame	7 years	12 months on the screen, 5 years on the locks
Choose it if	You live near the water, want the finest mesh to see through, or the longest warranty	You'd like a clean, modern look and solid security for less	You want proven security on a tighter budget, or like the classic look

Product details from Alspec, the Australian company that designs Invisi-Gard, Alu-Gard and the Alu-Grille diamond grille (product information, February 2024). Ratings depend on correct installation. Warranty conditions apply, including regular cleaning.

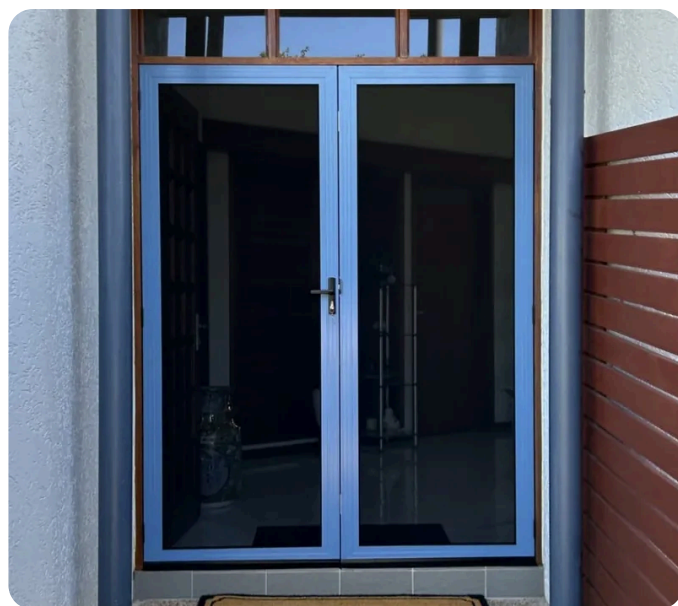

Frame colours

Match your house

Invisi-Gard frames are powder coated in a wide range of colours, so they can suit your window frames, your front door or the whole house.

Printed colours are a guide only. Also available: Ultra Silver, Clear Anodised, Bronze Anodised and a Western Red Cedar woodgrain. Ask us to see real samples.

Looking after them

How often to clean

Salt is what wears screens out, so Invisi-Gard goes by how far you are from the sea:

Within 500 metres	Every 1 to 2 weeks
500 metres to 1 km	Every 2 to 4 weeks
1 to 10 km	Every 2 to 3 months
More than 10 km	Every 6 months

Wash with warm water, a little mild detergent and a soft brush, then rinse with mains water. Use graphite powder on the locks, never oil or spray.

How it works

From first call to fitted

- 1 Free measure and quote.** We come to you, measure every door and window, and show you the options.
- 2 Built to order.** As a licensed Invisi-Gard dealer, we build your screens to order in our Townsville workshop.
- 3 Installed by our team.** The same local team that measured fits everything.
- 4 Looked after.** Keep this guide for the care steps, and call us if anything needs attention.
